

Project Summary

Country Towns Sewerage Project

CLIENT	WIG
LOCATION	Central Highlands
PROJECT VALUE	Undisclosed

Project Description

Hydraulic modelling and detailed design of backlog sewerage schemes for the townships of Blackwood, Gordon, Smythesdale and Waubra, incorporating low pressure systems, conventional gravity systems and central pump stations with rising mains to wastewater treatment plants.

Facets of work completed include:

- Pipeline hydraulics and modelling
- Pump Station Design – Mechanical
- Pumps Station Design – Electrical
- Technical Support during construction phase
- As-constructed documentation
